

Business Analyst (Permanent)

Location: Katowice/Poznan, Poland

Company Profile:

opensky a European challenger brand to the large global software consultancies, delivering innovation across Government, Transport, Environment and Health sectors in the Ireland and the UK.

Due to business growth, **opensky** has a new role for a Business Analyst on a permanent basis in our Katowice/Poznan office. You will be a key member of a high performing team, working with colleagues in both Poland and Ireland as part of the wider project group, delivering on Government strategic projects.

Why Join our Team:

opensky is a dynamic, exciting place to work. We hire exceptional people, and every one of them is empowered to think independently, take initiative and be innovative in their job. We are committed to ensuring that our performance and reward strategies are designed to effectively support our employees at every opportunity and offers an excellent work-life balance.

At **opensky** our employees enjoy the creative, agile and meaningful work they do, the resources and technology they have access to and the benefits we offer. The projects we work on make a real difference, and that's what makes us distinct in our industry. This very factor means that our employees get to work with the latest and emerging technologies.

We've built a truly unique culture here at **opensky**, where our employees are always learning, challenged with interesting projects and rewarded with fantastic benefits. We attract talented individuals from a wide range of cultural, geographic and educational backgrounds whom bring with them a rich variety of skills and experiences.

Our plan is simple; we hire the best people whom possess the skills, talent, expertise, experience and motivation that we require and when we find them, we help them grow, develop and achieve their goals.

The values we share help us to thrive and succeed, both as individuals and as a team. If you share those values, you'll fit right in!

The Job:

This is a permanent role based in Katowice or Poznan, Poland. As a business analyst you will use your knowledge of business process, technical background and core business analyst skills to add value to system design and process improvement projects.

The business analyst will lead the business system analysis, gather requirements, analyse existing systems and collaborate with developers in system design. This business analyst is likely to enjoy technical challenges, have an eye for document detail, and be familiar with UML and Visio.

Description of position:

- Business processes modelling
- Identifying gaps and suggesting improvements to the existing business processes
- Analyse new and existing business systems and gather business requirements
- Engage closely with stakeholders and development team during the design and implementation phase

Core Requirements:

- Attention to detail and excellent documentation skills
- Clear communication and on-site workshop management skills
- Open-minded, proactive self-motivated team member
- Ability to mock-up UI screens & user flows
- Ability to organise and collate user interviews and focus groups
- UML knowledge
- Higher Education
- Good level of English, both spoken and written

Experience:

- 3 years + experience as a business analyst
- Technical background
- SDLC knowledge
- Business process analysis methodologies and tools

Desirable Requirements:

- Data Modeling
- T-SQL/.NET development background
- BPMN
- Modern UI/UX trends

Attractive Package:

- Competitive Salary – market adjusted
- Multisport
- LuxMed
- Parking
- Life Insurance
- Career development programme
- Ethical Employer
- Friendly, fast paced atmosphere
- International working environment in a growing company
- Work with innovative technologies & solutions
