

Junior Project Manager (Permanent) Location: Naas, Co Kildare

Company Profile:

OpenSky a European challenger brand to the large global software consultancies, delivering innovation across Government, Transport, Environment and Health sectors in the Ireland and the UK.

Due to business growth, OpenSky has a new role for a Junior Project Manager on a permanent basis in our Naas office. You will be a key member of a high performing team, working with colleagues in both Poland and Ireland as part of the wider project group, delivering on Government strategic projects.

Why Join our Team:

OpenSky is a dynamic, exciting place to work. We hire exceptional people, and every one of them is empowered to think independently, take initiative and be innovative in their job. We are committed to ensuring that our performance and reward strategies are designed to effectively support our employees at every opportunity and offers an excellent work-life balance.

At OpenSky our employees enjoy the creative, agile and meaningful work they do, the resources and technology they have access to and the benefits we offer. The projects we work on make a real difference, and that's what makes us distinct in our industry. This very factor means that our employees get to work with the latest and emerging technologies.

We've built a truly unique culture here at OpenSky, where our employees are always learning, challenged with interesting projects and rewarded with fantastic benefits. We attract talented individuals from a wide range of cultural, geographic and educational backgrounds whom bring with them a rich variety of skills and experiences.

Our plan is simple; we hire the best people whom possess the skills, talent, expertise, experience and motivation that we require and when we find them, we help them grow, develop and achieve their goals.

The values we share help us to thrive and succeed, both as individuals and as a team. If you share those values, you'll fit right in!

The job:

The Junior Project Manager will work within our Project Management team. Liaising closely with sales and development, lead customer projects and deliver successful implementations. You will be responsible for project kick-offs, developing project plans and delivering an amazing experience to our customers.

This role would suit someone who is bright and enthusiastic with the desire to work in a fast-moving IT Consultancy environment.

Description of position:

- Proactively manage the planning and start-up of projects
