

Mobile App Manager (SPC/FTC)

Location: Dublin

Company Profile:

OpenSky a European challenger brand to the large global software consultancies, delivering innovation across Government, Transport, Environment and Health sectors in the Ireland and the UK.

Due to business growth, OpenSky has a new role for a Mobile App Manager on an SPC/FTC basis in a Dublin based city centre location. You'll form part of a high performance team, working together to deliver projects of national and international importance changing the way large Business and Governments work.

Why Join our Team:

OpenSky is a dynamic, exciting place to work. We hire exceptional people, and every one of them is empowered to think independently, take initiative and be innovative in their job. We are committed to ensuring that our performance and reward strategies are designed to effectively support our employees at every opportunity and offers an excellent work-life balance.

At OpenSky our employees enjoy the creative, agile and meaningful work they do, the resources and technology they have access to and the benefits we offer. The projects we work on make a real difference, and that's what makes us distinct in our industry. This very factor means that our employees get to work with the latest and emerging technologies.

We've built a truly unique culture here at OpenSky, where our employees are always learning, challenged with interesting projects and rewarded with fantastic benefits. We attract talented individuals from a wide range of cultural, geographic and educational backgrounds whom bring with them a rich variety of skills and experiences.

Our plan is simple; we hire the best people whom possess the skills, talent, expertise, experience and motivation that we require and when we find them, we help them grow, develop and achieve their goals.

The values we share help us to thrive and succeed, both as individuals and as a team. If you share those values, you'll fit right in!

The Job:

Do you want to influence the Irish Transport Market, drive change through technology and be part of determining the strategy for Transport information in Ireland through Mobile Applications?

We are seeking a Mobile App Manager and/or Architect to work directly with one of Ireland's most innovative Government organisations to manage and drive their Mobile App strategy.

Description of position:

- Lead initiatives to drive the mobile apps strategic direction for the organisation
- Ensure the organisation stays ahead of new releases of the core mobile platforms iOS and Android
- Adopt a user and data-driven approach to App development - by marrying both quantitative (AB testing) and qualitative (user research & usability testing) in order to drive compounding improvements across all Apps
- Plan and execute appropriate deployment and security architectures
- Collaborate internally and externally to examine new requirements and champion new App ideas

Core Requirements:

- Deep experience with Design Thinking
- Demonstrated experience with iOS and Android platforms and deployment options
- Demonstrated success with 5+ years as a Manager and/or Architect for mobile apps
- Proven track record of working with internal and external teams to deliver new requirements on time
- Experience with B2C Applications, bonus for those in the transport market
- Experience with analytics tools (Google Analytics, Amplitude), and AB Testing frameworks (Optimizely, Firebase)
- Passion for growing an education product in an international audience
- Strong ability to lead initiatives to rapidly iterate on enhancements
- Deep understanding of user-centered design methods (UX wireframes, information architecture, swim lanes)
- Experience working with external suppliers

Personal Skills:

- Excellent communication skills in both written and verbal English
- Ability to interface with clients in a professional and efficient manner
- Excellent business process awareness
- Strong time management / prioritisation and planning skills
- Ability to Travel occasionally

The above statements are not an exhaustive list

We Offer:

You will form part of a high-performance team, working together to deliver projects of national and international importance changing the way large Business and Governments work.

- Competitive Salary – market adjusted
- Bonus
- Continuous Professional Development
- Education Assistance Programme
- Company Pension
- Incremental Increases in Annual Leave
- Employee of the Quarter Awards
- Employee Assistance Programme (EAP)
- Annual Health Screening
- Employee Referral Scheme
- Ethical Employer
- Friendly, fast paced atmosphere
- International working environment in a growing company
- Work with innovative technologies & solutions
- Microsoft Dynamics & Personal development programmes
