

## **BI & Analytics Consultant (Permanent)**

### **Location: Naas, Co Kildare**

#### Company Profile

OpenSky a European challenger brand to the large global software consultancies, delivering innovation across Government, Transport, Environment and Health sectors in the Ireland and the UK.

Due to business growth, OpenSky has a role for a BI & Analytics Consultant based in our Naas, Co Kildare headquarters on a permanent basis. This an excellent opportunity for an experienced professional to utilise their skills and experience in an international working environment working with innovative technologies and solutions. You will form part of a high-performance team, working together to deliver projects of national and international importance changing the way large Business and Governments work.

#### Why Join our Team:

OpenSky is a dynamic, exciting place to work. We hire exceptional people, and every one of them is empowered to think independently, take initiative and be innovative in their job. We are committed to ensuring that our performance and reward strategies are designed to effectively support our employees at every opportunity and offers an excellent work-life balance.

At OpenSky our employees enjoy the creative, agile and meaningful work they do, the resources and technology they have access to and the benefits we offer. The projects we work on make a real difference, and that's what makes us distinct in our industry. This very factor means that our employees get to work with the latest and emerging technologies.

We've built a truly unique culture here at OpenSky, where our employees are always learning, challenged with interesting projects and rewarded with fantastic benefits. We attract talented individuals from a wide range of cultural, geographic and educational backgrounds whom bring with them a rich variety of skills and experiences.

Our plan is simple; we hire the best people whom possess the skills, talent, expertise, experience and motivation that we require and when we find them, we help them grow, develop and achieve their goals.

The values we share help us to thrive and succeed, both as individuals and as a team. If you share those values, you'll fit right in!

## The Job:

Analytics is one of our key services to clients and we are seeing an uplift in client requirements in this area. As a result, we are looking to hire a Consultant who can lead projects and advise customers on the best ways to utilise and optimise Data Analytics for their business.

Your key responsibilities will include:

- Being the strategic interface to clients (up to C-level)
- Be comfortable working both in a standalone capacity and as part of an implementation team
- Act as a product specialist for the Microsoft analytics offering, particularly Modern data warehouse
- Help customers get the most out of their data to provide actionable insights
- Help with continual improvement of the analytics practice

## The Fit:

- Strong experience with Microsoft Analytics technology, both for visualisation and data management
- Excellent skills in Power BI
- Exposure to wide range of Modern data warehouse suite
- Facilitate the definition of project scope, goals and deliverables
- Experience working in an Agile environment
- 2+ years as a BI Consultant, Data Scientist or similar role
- Be a significant contributor to pre-sales including customer presentation and bid response documentation
- Technical capabilities around Process scoping, ETL, Modelling, data architecture and reporting
- Client engagement at C/Board Level
- Expertise delivering presentations and workshops
- Excellent documentation skills

## Desirable Skills:

- BI, Analytics or Data related Certification is highly desirable
- Exposure to Project Management and Team management
- Business Process Analysis experience
- Experience with R and Python
- Predictive modelling and machine learning algorithms

### Personal Skills:

- Excellent communication skills in both written and verbal English
- Ability to interface with clients in a professional and efficient manner
- Excellent business process awareness
- Strong time management / prioritisation and planning skills
- Ability to Travel occasionally

*The above statements are not an exhaustive list*

### What we Offer:

You'll form part of a high-performance team, working together to deliver projects of national and international importance changing the way large Business and Governments work.

- Competitive Salary – market adjusted
- Continuous Professional Development
- Education Assistance Programme
- Company Pension
- Incremental Increases in Annual Leave
- Employee of the Quarter Awards
- Employee Assistance Programme (EAP)
- Annual Health Screening
- Employee Referral Scheme
- Ethical Employer
- Friendly, fast paced atmosphere
- International working environment in a growing company
- Work with innovative technologies & solutions
- Microsoft Dynamics & Personal development programmes
