

Digital Transformation Consultant (Permanent)

Location: Naas, Co Kildare

Company Profile:

OpenSky a European challenger brand to the large global software consultancies, delivering innovation across Government, Transport and Environment sectors in the UK and Ireland.

Due to business growth, OpenSky has a new role for a Digital Transformation Consultant in its Naas, Co. Kildare office. You will be a key member of OpenSky's Digital Consulting Team delivering on Government strategic projects.

Why Join our Team:

OpenSky is a dynamic, exciting place to work. We hire exceptional people, and every one of them is empowered to think independently, take initiative and be innovative in their job. We are committed to ensuring that our performance and reward strategies are designed to effectively support our employees at every opportunity and offers an excellent work-life balance.

At OpenSky our employees enjoy the creative, agile and meaningful work they do, the resources and technology they have access to and the benefits we offer. The projects we work on make a real difference, and that's what makes us distinct in our industry. This very factor means that our employees get to work with the latest and emerging technologies.

We've built a truly unique culture here at OpenSky, where our employees are always learning, challenged with interesting projects and rewarded with fantastic benefits. We attract talented individuals from a wide range of cultural, geographic and educational backgrounds whom bring with them a rich variety of skills and experiences.

Our plan is simple; we hire the best people whom possess the skills, talent, expertise, experience and motivation that we require and when we find them, we help them grow, develop and achieve their goals.

The values we share help us to thrive and succeed, both as individuals and as a team. If you share those values, you'll fit right in!

The Job:

We are a unique and creative organisation who deliver technology expertise through a “business first” focus, properly applying technology excellence by understanding and matching our client’s business. As the Digital Transformation Consultant, you are a crucial part of ensuring our clients’ business needs are represented throughout the project delivery cycle.

- Understanding the Client’s business and building a deep knowledge of the detailed business requirements and objectives driving the need for transformation
- You will develop as an innovator; develop new ideas that have the potential to make a real difference to the business of Government.
- Representing the subject matter expert on the project and acting as the business requirements owner in the technology delivery team
- Engaging deeply with the client, managing workshops, elicitation of requirements, business and functional requirements analysis and documentation
- Perform testing on deliverables to ensure a match to business requirements
- Work closely with the OpenSky QA team to ensure the quality of deliverables meets required standards
- Training and user adoption of our client’s teams to ensure seamless take-on of business and technology change
- Work with project managers, business analysts and technical leads to ensure successful project delivery

Essential Skills:

- 4+ years of experience in a similar Analysis/Consultancy role in Digital Transformation
- A Degree in Engineering or Computer Science
- Project Management Tools proficiency
- Experience in engaging on multiple projects concurrently
- Experience in producing analysis artefacts such as Functional Specifications, Business Requirements Documents
- Experience working with Technical Teams, with exposure to the following technologies; Microsoft Dynamics CRM, .Net, MS SQL
- Analytical Skills with ability to truly understand the full scope and impact of the project requirements
- Experience in Requirements Gathering & Documentation, Risk & Issue Management
- Project Ownership, Ability to present to Customers, understand their needs & manage Customer relationships
- Proven experience in Quality Assurance of deliverables

Desirable Skills:

- Project Management and/or Business Analysis Certification is highly desirable

- Exposure to Microsoft Dynamics CRM is an advantage
- An interest and willingness to understand the drivers behind Government

Personal Skills

- Ability to Travel
- Excellent communication skills in both written and verbal English
- Ability to interface with clients in a professional and efficient manner
- Excellent business process awareness

We Offer:

You will form part of a high-performance team, working together to deliver projects of national and international importance changing the way large Business and Governments work.

- Competitive Salary – market adjusted
- Continuous Professional Development
- Education Assistance Programme
- Company Pension
- Incremental Increases in Annual Leave
- Employee Assistance Programme (EAP)
- Annual Health Screening
- Employee Referral Scheme
- Ethical Employer
- Friendly, fast paced atmosphere
- International working environment in a growing company
- Work with innovative technologies & solutions
- Personal development programmes
